REFERENCE LETTER

Mind Development Company would like to offer this letter for Auriga Inc. to support their talent and experience as a software R&D provider. We chose Auriga in 2010 for its significant experience with various embedded platforms and telecom solutions, work on development of an innovative SAAS-based video service.

Auriga engineers demonstrated a profound level of knowledge in the field of telecommunications, deep competency in solving complex and non-trivial tasks, the ability to communicate with our IT-team and intention of understanding and realizing the best business objectives of the project.

Auriga promotes high quality of our products and contributes to our splendid reputation in the market. We intensify the pace of development and the product release date in the market, by cooperating with Auriga Company. We plan to expand our collaboration with new projects and tasks.
